1996 EDITORIAL INDEX

ASSEMBLY

Engineer's Fact File, "Surface Mount Adhesives," January 1996, pg. 27

"Factors Affecting SMD Placement Accuracy," Baker, Stuart, Amistar, San Marcos, Calif., January 1996, pg. 30

"MCM Test Techniques: Keeping Pace With Packaging Technology," Flint, Andrew; Trent, James, Motorola Inc., Austin, Texas, January 1996, pg. 49

"Assembling MCMs with KGD," Brathwaite, Nicholas E.; Nguyen, Steven, Visith Thipphavong, nCHIP Inc., San Jose, Calif., January 1996, pg. 55

Applied Technology, "X-Ray Inspection System Helps Identify Shifts in Large, Thick Backplane Boards," *Electronic Packaging & Production,* January 1996, pg. 69

"NEPCON West '96 Drives Home New Technologies," January 1996, pg. 71

Engineer's Fact File, "Conformal Coating Materials," February 1996, pg. 33

"Increasing BGA Manufacturing Yields," Jones, Mark J., IBM Microelectronics Div., Charlotte, N.C., February 1996, pg. 38

"Using Standard Production Equipment to Build MCMs," Duran, Hamit; Brandli, Gerold, ETH Zurich/BWI, Switzerland; and Zanetti, Daniel; Portmann, Ruedi, ESEC SA, Cham, Switzerland, February 1996, pg. 49

"The Printed Package Revolution," Gilleo, Ken; Cinque, Tom; Lee, Chris; Silva, Angelo, Alpha Metals, Jersey City, N.J.; and Godin, Rick; Renda, Joe, MPM, Franklin, Mass., February 1996, pg. 81

"Technologies Advance Vibratory Feeders," Gaines, Jeff, US Vibra, Tucson, Ariz., February 1996, pg. 103

Applied Technology, "A Better High-Mix Process Test Solution," *Electronic Packaging & Production,* February 1996, pg. 117

Applied Technology, "Integrating Surface Mount Technology into an Automated Assembly Operation," *Electronic Packaging & Production,* February 1996, pg. 121

"Technology Advancement Center Introduction," Rua, Ray, RRA Technical Services and Solutions, February sup. 1996, pg. 8

"Line 1: PC Card Assembly," *Electronic Packaging & Production,* February sup. 1996, pg. 12

"Line 2: Multichip Module Assembly," *Electronic Packaging & Production,* February Sup. 1996, pg. 20

"Line 3: Type III Assembly," *Electronic Packaging & Production,* February sup. 1996, pg. 24

"Line 4: Type III Assembly," *Electronic Packaging & Production,* February sup. 1996, pg. 29

Engineer's Fact File, "Methods of Dispensing and Curing Surface Mount Adhesives," March 1996, pg. 25

"Assembly Considerations for Chip Scale Packages," Marcoux, Phil, ChipScale Inc., San Jose, Calif., March 1996, pg. 35

"The Basics of Soldering Fume Extraction," Kohne, J.; Lee, T., Metcal, Inc., Menlo Park, Calif., March 1996, pg. 57

Applied Technology, "Employee Teams Improve Production and Reduce Defects," *Electronic Packaging & Production,* , March 1996, pg. 63

Engineer's Fact File, "Conformal Coating Application Methods," April 1996, pg. 36

"Accurate Placement of Ball Grid Array Packages," Deley, M.; Ramsey, C., Quad Systems Corp., Horsham, Penn., April 1996, pg. 36

"Outsourcing Conformal Coating Requirements," Henn, Kevin G., Aerospace Avionics, Bohemia, N.Y., April 1996, pg. 53

Applied Technology, "In-Line MDAs Provide Instant Feedback for Contract Manufacturer," *Electronic Packaging & Production,* April 1996, pg. 67

Engineer's Fact File, "Conformal Coating Curing Methods," May 1996, pg. 27

"Ambient vs Inert Wave Soldering for PCB Assembly," Hurt, Lynn; DeVries, Royal, Sparton Electronics, Brooksville, Fla.; Jackson, Mich., May 1996, pg. 30

"Converting to No-Clean for Flip Chip Assembly," Clementi, J.; Dearing, G.; Zimmerman, J.; Bergeron, C., IBM Microelectronics Division, Charlotte, N.C.; Endicott, N.Y.; Bromont, Quebec, Canada, May 1996, pg. 37

Applied Technology, "Dross Recycling Slashes Solder Costs," *Electronic Packaging & Production,* May 1996, pg. 89

"The Ultimate Connections: BGA and Flip Chip Attachment," Heitmann, Roland, Universal Instruments Corp., Binghamton, N.Y., May sup. 1996, pg. 68

Engineer's Fact File, "Solder Paste," June 1996, pg. 27

"Tips for Manual Soldering Performance," Abbagnaro, Lou, PACE Inc. Laurel, Md., June 1996, pg. 30

"Laser Technology Impacts Electronics Manufacturing," Crosby, Paul, Coherent Laser Group, Santa Clara, Calif.; Shiner, William, Convergent Energy, Sturbridge, Mass., June 1996, pg. 59

Engineer's Fact File, "Screen Printers for Solder Paste," July 1996, pg. 21

"Technology Changes ESD Protection," Koehn, Stephen C.; Swenson, David E.; 3M Electrical Specialties Division, Austin, Texas, July 1996, pg. 26

"Improving Screen Printing Yields," Clouthier, Richard S., AMTX Inc., Canandaigua, N.Y., July 1996, pg. 32

Applied Technology, "Switch to SMT Spells Success," *Electronic Packaging & Production,* July 1996, pg. 59

Engineers Fact File, "Screens and Stencils," August 1996, pg. 21

"Reworking Ball Grid Array Assemblies," Mullins, Brian, Associate Editor, *Electronic Packaging & Production,* August 1996, pg. 35

"35 Years of Progress in Electronics Technology," Crum, Susan, Associate Editor, *Electronic Packaging & Production,* August 1996, pg. 53

"Screen Printing for BGAs," Zarrow, Phil; Hall, Steve, MPM Corp., Franklin, Mass., August 1996, pg. 61

"The Impact of BGAs on SMT Placement Equipment," Drake, Bob, Philips Industrial Automation, Alpharetta, Ga., August 1996, pg. 65

"Advanced Reflow Soldering Applications," Heller, David, Heller Industries, Florham Park, N.J., August 1996, pg. 69

"Cleaning BGAs," Cala, Frank, Church & Dwight Co., Inc., Princeton, N.J., August 1996, pg. 73

"BGA Assembly and Solder Paste Verification," Beck, M., View Engineering Inc., Ann Arbor, Mich., August 1996, pg. 76

"Cleaning Circuit Boards with Isopropyl Alcohol," Borawski, C., Spec Sciences; Lampka, J., Sierra Technologies, Buffalo, N.Y., September 1996, pg. 36

"Optimizing the Design of High-Density Systems," Sandborn, P., Savantage, Inc., Austin, Texas, September 1996, pg. 53

"Implementing No-Clean Technology," Bauer, Brian, Heraeus Inc., Cermalloy Div., West Conshohocken, Penn., September 1996, pg. 63

Applied Technology, "InkJet Technology Makes its Mark on MCMs," *Electronic Packaging & Production,* September 1996, pg. 69

Engineer's Fact File, "Fine Pitch Soldering Options," October 1996, pg. 19

"Cleaning in a New Era," Mullins, Brian, Associate Editor, *Electronic Packaging & Production,* October 1996, pg. 24

Engineer's Fact File, "Fine Pitch Soldering Defects," November 1996, pg. 19

"Addressing Small Form Factor Assembly Challenges," Roberts, John; Trummer, Jim, Nextek, Inc., Huntsville, Ala., November 1996, pg. 20

Applied Technology, "Fine-Pitch Placement Capability Fuels Growth for Contract Manufacturer," *Electronic Packaging & Production,* November 1996, pg. 51

Applied Technology, "Conformal Coating, Applications Method Enhance Processing," *Electronic Packaging & Production,* November 1996, pg. 53

Engineer's Fact File, "Parts Feeder Options for Through-Hole Components," December 1996, pg. 19

"Vibration Testing of Electronic Assemblies," Schutt, Jeff, Trace Laboratories, Chicago, Ill., December 1996, pg. 20

1996 EDITORIAL INDEX (Continued)

"Assembling Fine Pitch SMT and BGA Circuits," Mullins, Brian, Associate Editor, *Electronic Packaging & Production,* December 1996, pg. 38
Applied Technology, "Success With Spray Fluxing," *Electronic Packaging & Production,* December 1996, pg. 43

FABRICATION
"Improving Fine Line Yield," Carhart, Robert A.; Murray, Anita J., Texas Instruments, Printed Circuit Resources, Austin, Texas, January 1996, pg. 41
"Flexible Circuit Design Affects Fabrication and Assembly Costs," McCoy, Ellen, Sheldahl, Northfield, Minn., February 1996, pg. 55
"BGA Termination Alternatives," Mahler, Bruce, Ohmega Technologies Inc., Culver City, Calif., February 1996, pg. 71
"Compatibility of PWB Coatings with Assembly Processes and Materials," DeBiase, Joseph; LaCroce Stephen; Landolt, Roger, Enthone-OMI Inc., New Haven, Conn., February 1996, pg. 95
Applied Technology, "Electrotek Retrofits Drills to Drill Smaller Holes Faster," *Electronic Packaging & Production,* February 1996, pg. 125
"Imaging Technology: Today, Tomorrow and Beyond," Crum, Susan, *Electronic Packaging & Production,* March 1996, pg. 43
"Fabrication Issues in PCB Design," Ferrari, Gary, Tech Circuits, Wallingford, Conn., March sup. 1996, pg. 6
"Package Choice Affects Fabrication Processes," Solberg, Vern, Tessera Inc., San Jose, Calif., March sup. 1996, pg. 10
"Cost Reduction in PC Card Fabrication," Allen Scott, Continental Circuits, Winter Springs, Fla., March sup. 1996, pg. 14
"Electroless Ni/Au As an HASL Alternative," Parquet, Dan; Sedacca, Spence, Merix Corp., Forest Grove, Ore. and Loveland, Colo., March sup. 1996, pg. 18
"Breaking the Fine Pitch Test Bottleneck," Alinson, Randy, Probot, Branford, Conn., March sup. 1996, pg. 21
"Faster Implementation of New Technologies," Baldridge, Robert; Berry, Walk; Hall, Charles; Thatcher, Steve, Praegitzer Industries, Inc., Dallas, Ore., March sup. 1996, pg. 24
"MCM-L Substrate Choices Expand," Crum, Susan, *Electronic Packaging & Production,* April 1996, pg. 47
"Photodefined Vias Enable High Density Designs," McDermott, Brian J., Continental Circuits, Winter Springs, Fla., May 1996, pg. 45
"Process Optimization with Organic Solderability Preservatives," Crum, Susan, *Electronic Packaging & Production,* June 1996, pg. 40
"Pre-Production Planning Improves Board Manufacturability," Grassmann, Klaus, Merix, Forest Grove, Ore., July 1996, pg. 41
"Enhancing Solder Flow Using Chemical Etching," Hosking, F.M.; Stevenson J.O.; Yost, F. G.; Sandia National Laboratories, Albuquerque, N.M., July 1996, pg. 54
"Matching Solder Masks to Users' Needs," Steinmeyer, Kent; Bullock, Kathy, Merix, Forest Grove, Ore., August 1996, pg. 45
Engineer's Fact File, "Solder Mask Materials," September 1996, pg. 25
"Using AOI for Process Control," Murray, George, Gerber Systems, South Windsor, Conn., September 1996, pg. 28
"Plating Choices in Sequential Buildup Technologies," Crum, Susan, Associate Editor, *Electronic Packaging & Production,* October 1996, pg. 33
"Liquid Resist Allows Land Size Reduction," Jacob, T.; Lacher, U.; Kapp-Schwoerer, D., Ciba-Geigy, November 1996, pg. 27
"Prototyping Gains Speed," Crum, Susan, Associate Editor, *Electronic Packaging & Production,* December 1996, pg. 34

PACKAGING
"Proper Shielding Controls EMI Emissions and Provides Immunity," Markstein, Howard, *Electronic Packaging & Production,* January 1996, pg. 61
"Rigid-Flex: A Maturing Technology," Markstein, Howard, *Electronic Packaging & Production,* February 1996, pg. 61
"Managing Heat In Electronics Enclosures," Ricke, Joe, Sr, Hoffman Engineering Co., Anoka, Minn., February 1996, pg. 87
"3-D Packaging Helps Solve Computer Memory Capacity Problems," Cady, James; Bustami, Tareq, Staktek Corp., Austin, Texas, February 1996, pg. 109
"Differential Signal Transmission Through Backplanes and Connectors," Fusi, Mary Ann; Zanella, Fabrizio, Teradyne, Connection Systems Div., Nashua, N.H., March 1996, pg. 27
"Extending the Range of Copper for Fiber Channel Interconnects," Foster, Christine; Duesen, Herb Van, W.L. Gore & Associates, Newark, Del., April 1996, pg. 59
Applied Technology, "Viscoplastic Analysis Supports DFA," *Electronic Packaging & Production,* April 1996, pg. 69
"Cooling Electronic Equipment Enclosures," Markstein, Howard W., *Electronic Packaging & Production,* May 1996, pg. 57
Applied Technology, "CTE Control Material Eliminates Cracking of GaAs Device," *Electronic Packaging & Production,* May 1996, pg. 91
"Package Assembly Technology Directions," Bauer, Charles, TechLead Corp., Evergreen, Colo., May Sup. 1996, pg. 79
"Rugged Enclosures for Systems Packaging," Sabo, Dave, AP Labs, San Diego, Calif., June 1996, pg. 67
Applied Technology, "Software Enhances Microprocessor-Based Systems Thermal Design," *Electronic Packaging & Production,* June 1996, pg. 75
"Cold Plate Heat Sinking For PCBs," Markstein, Howard W., Western Editor, *Electronic Packaging & Production,* July 1996, pg. 46
"Trends in IC Packaging," Marrs, Robert, Amkor Electronics Inc., Chandler, Ariz., August 1996, pg. 24
"Flexible Circuitry Develops Beyond Disk Drives," Cowburn, Tony; Medlock, Kate, ADFlex Solutions, Inc, Havant, U.K., October 1996, pg. 41
"Ensuring Signal Integrity in Connectors, Cables and Backplanes," Markstein, Howard W., Western Editor, *Electronic Packaging & Production,* October sup., pg. 61
"Microwave Circuits Require Special Packages," Carter, Jerry; Lindner, Alan, StratEdge Corp., San Diego, Calif., November 1996, pg. 43

MCMs/HYBRIDS
"Manufacturing Power Hybrid Circuits," David, Dr. R.F., Teledyne Electronic Technologies, Los Angeles, Calif., March 1996, pg. 51
Applied Technology, "Diffusion Patterning Improves C-MAC MCMs," *Electronic Packaging & Production,* March 1996, pg. 64
Applied Technology, "SLC Reduces Camcorder Size," *Electronic Packaging & Production,* April 1996, pg. 71
"Reducing MCM Fabrication Costs," Green, Howard, MicroModule Systems Inc., Cupertino, Calif.: Skinner, Michael P., Dow Chemical, Cupertino, Calif., May 1996, pg. 50
"Wideband Electrical Characterization of MCM Materials," S. Riad; W. Su; A. Elshabini-Riad; F. Barlow; I. Salama, Virginia Polytechnic Institute and State University, Blacksburg, Va., June 1996, pg. 47
Applied Technology, "Designing a Multilayer Circuit For an Anti-Lock Braking System," *Electronic Packaging & Production,* June 1996, pg. 73
Applied Technology, "MCM Process Combines Beryllia Substrate," *Electronic Packaging & Production,* August 1996, pg. 81
"Achieving Maximum MCM Reliability," Fryhoff, Dick; Linden, Rolf; Duncan, Larry, Elmo Semiconductor, Burbank, Calif., September 1996, pg. 41
"Multilayer Ceramics: A Revitalization," Sigliano, Richard E.; Lanzone, Robert, Kyocera America Inc., San Diego, Calif., September 1996, pg. 47
"Increasing Surge Circuit Reliability Using Thick Film Materials," Raesner, Dennis, CTS Corp., Berne, Ind.; and Bokalo, Peter; Robertson; J. Michael, EMCA REMEX Products, Montgomeryville, Penn., October 1996, pg. 49
"Hybrid Circuit Screen Printing Continues to Evolve," Miler, Leon, Pacific Microelectronics Corp., Portland, Ore., November 1996, pg. 37
"Materials for Multichip Modules," Sergent, Dr. Jerry E., BBS PowerMod, Victor, N.Y., December 1996, pg. 28
